

Find out how °Connex  
OVERWRAP insulated  
shipping systems can slim  
down your bulk packaging

**topa thermal**

# °Connex | OVERWRAP

Flat-Pack Rigid Insulated Shipping System

**The slimmest thermal packaging solution for bulk pharma supply**

EU and US  
pallet-accepting

- 120+ hours distribution duration
- +2°C to +8°C, +15°C to +25°C, +2°C to +25°C
- Warehouse efficient size
- Self-supporting construction
- Pre-filled coolant-insulation cassettes
- Simple one person assembly

**A 55% loadable shipping ratio**

- ✓ Equalling the next gen active solutions
- ✓ Outperforming existing passive solutions by up to 35%

## Reduced Packaging Materials

- Smaller size, lighter weight, lower costs\*
- Reduced packaging = reduced CO2 impact

## Tested and optimized for bulk pharma distribution

- ASTM transport tested
- Airline-ready unique pallet design

°Connex OVERWRAP comes complete with our class-leading Thermal Cover in 3 thermal cover options, for consistent, high performance or extreme temperature protection.

**Slim down your bulk packaging with °Connex | OVERWRAP**

Because your pharma product should be the only bulk part of your distribution
